**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. Claims 1-65 are pending in this communication filed 03/28/01.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-28, 30, 52-58, and 64, drawn to designing group retirement plans for prospective plan sponsors, classified in class 705, subclass 35.
  - II. Claims 29, 31-51, and 59-65, drawn to designing retirement plans driven by business objectives or goals of a plan sponsor, classified in class 705, subclass 36.

Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Group I has merging a plan sponsor's business needs with a retirement plan design, collecting information from the plan sponsor with the information relating to the plan sponsor's business objectives, analyzing the information using a business logic component, generating a retirement plan with plan rules appropriate to the plan sponsor's business objective. The subcombination Group II has separate utility such as collecting information about a prospective plan sponsor from a Web site hosted by a computer, defining a set of eligibility rules for plan sponsors using the Web site for retirement plan

Art Unit: 3624

design, determining whether the plan sponsor is eligible to apply for a group retirement plan based upon the collected information about the employer and a set of eligibility rules, defining a set of plan design rules correlating business objectives, evaluating the information relating to the business objectives, generating a plurality of retirement plan rules, and presenting the retirement plan rules to the plan sponsor.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
